

Simply replace: your new HEUFT *GATEWAY II*

Dear Customer

You do not wish to lose your connection to the online remote diagnosis and maintenance of the HEUFT systems? In that case you will soon need our new server. Because this will only work with the HEUFT *GATEWAY II* as from 1 January 2021! It would be best to replace its predecessor with this future-proof hardware and software now – at a particularly attractive special price!

- state-of-the-art IT security with encrypted VPN IPsec point-to-point connection
- prepared for future software modules
- straightforward web-based administration and commissioning by your own IT team
- direct connection to our 24/7 HEUFT *TeleService* for remote diagnosis
- full integration also including with the HEUFT *GATEWAY II* systems
- adjustable automatic security updates
- display with current status messages
- compact design of the HEUFT *GATEWAY II* server
- easy data storage via USB

This way you are prepared for future investments and sustainable line planning.
Let us provide you with a non-binding offer!

Your HEUFT SYSTEMTECHNIK GMBH

The promotion lasts until the end of 2020
